WHAT HILKIAH FOUND IN THE TEMPLE

LESSON TEXT—II Chron. 34:14-33.
GOLDEN TEXT—Thy word is a lamp unto my feet and a light unto my path.
PRIMARY TOPIC—Finding a Lost Book.
JUNIOR TOPIC—Finding a Lost Book.
INTERMEDIATE AND SENIOR TOPIC—Discovering a Guidebook.
YOUNG PEOPLE AND ADULT TOPIC—The Bible in National Life.

I. The Book of the Law Found (vv. 14-17).

1. The occasion (v. 14).

It was while restoring the temple during Judah's reformation that the Book of the Law was discovered. No doubt, in clearing out the dark corners to make repairs and to find a place to store the subscriptions made by the people, many things which had been lost were found, among which was the law. This was "the law of the Lord given by Moses."

2. The book delivered to the king (vv. 15-17).

In a report of the work, the king was informed of the finding of the Book of the Law by Hilkiah, and the book was delivered to him.

II. The Effect of the Reading of the Law (vv. 18-28).

1. The king rent his clothes (v. 19).

As the law was read before him, the king was led to realize the awful extent of the nation's departure from God. He knew that sin merited punishment. The function of the law is to reveal sin. The reading of the royal robes indicated that the king was penitent and sorrowful.

2. The king sent a deputation to make inquiry of the Lord (vv. 20, 21).

The king included himself in guilt before God. "Go inquire for me and for them that are left—for great is the wrath of the Lord that is poured out upon us." His sense of sin was so keen that he sent to inquire of the Lord as to whether there was any means of diverting the divine judgments. Instinctively, the human heart turns from God's threatening judgments to a means of escape. The soul that sorrows for sin inquires for a way of escape. The law prepares for the gospel. The law is our schoolmaster to bring us to Christ (Gal. 3:24).

3. The message of Huldah, the prophetess (vv. 22-28).

(1) Confirmation of what the law said (vv. 22-25).

She said that all the curses written in the law must fall, for the sins had been so flagrant that God's wrath could not be restrained. Destruction was hanging over Jerusalem and it was too late to avert it. It was not too late, however, to repent and to obtain mercy from God, but the onward consequences of sin must be realized. Fulfillment of this is found on every hand today. The murderer must hang.

(2) Acceptance of Josiah's repentance (vv. 26-28).

Because of his tenderness of heart and deep penitence, the Lord said he should be gathered to his grave in peace and should not see all the evil to be brought on Jerusalem and its people. What Huldah said was true, even though Josiah died in battle (35:23-25). When God accepts a man and forgives him, his death is a peaceful one, even though it may be on the battlefield. God's presence is with him, therefore he will go straight from the battlefield to the heavenly home.

III. The Law Obeyed (vv. 29-33).

1. The king read the law (vv. 29, 30).

He gathered together the inhabitants of Jerusalem, including the priests, Levites and elders, and read unto them the law.

2. The king made a covenant before the Lord to keep His commandments and testimonies (vv. 31, 32). In this covenant he pledged himself to do three things:

(1) To walk before the Lord (v.31). This meant that he would get personally right with God.

(2) To keep God's commandments, testimonies and statutes with all his heart and soul (v. 31). To read the law is not enough. Its holy requirements must be obeyed.

(3) To perform the words of the covenant, which were written in the book (v. 31). This was done sincerely and he caused all that were present "to stand to it."

3. The king took away the abominations out of all the countries which pertained to Israel (v. 33). All the days of the king they departed not from following after the Lord, the God of their fathers.

The Camel and the Rich Man

And Jesus looked round about, and said unto his disciples, How hardly shall they that have riches enter into the kingdom of God! It is easier for a camel to go through the eye of a needle, than for a rich man to enter into the kingdom of God.—Mark 10: 23-25.

Wasting Forest Wealth

From nature the people of the United States inherited a wealth of natural resources, says the Forester. Primer of the American tree assocs tion. Many of these we have spent recklessly, some of the very to mercifully of them. They seemed to compel the possibility of exhaustion. The forests are one of our natural resources that we have spent with a free hand.

There's Real Economy in KURFEES

80%-20-100% Pure Paint

THE heavy lead body of Kurfees Paint forms a tough, solid film that is proof against extreme hot and cold weather. It *hides* the discolored surface. It's the LEAD in paint that forms the protecting film and retains the brilliancy of color. Kurfees Paint contains 20% to 40% more lead per gallon.

Compare Paint Formulas—here's Kurfees:

Pure Carbonate Lead	80%
Pure Zinc Oxide	20%
	100%

Tinted with Pure Colors, ground and mixed with Pure Linseed Oil and Dryer—that's all.

It's the greater quantity of pure carbonate lead in Kurfees Paint, scientifically combined with pure linseed oil that makes it flow smoother and more quickly under the brush. It saves time and work in applying, hides and protects more square feet of surface per gallon and lasts longer in the weather. You can paint better and for less with Kurfees.

Come in and let us show you the beautiful color combinations and how little it will take to paint your house right.

"I HAD BEEN miserable for a long time. My health was poor, and I suffered a lot from weakness. At times, my strength was so little that I could not stand on my feet. I would have to give up and go to bed. My sides and back hurt dreadfully.

"I grew discouraged, for I could do so little. I worried about myself, and almost gave up hope of ever being strong and well. I could scarcely lift a bucket of water. My house work went undone, for I was not strong enough to do it.

"After I had taken Cardui for a little while, I began to feel better. I grew stronger, soon found that I could do my work with less effort, and the pains in my back and sides left me. NEWS REVIEW OF CURRENT EVENTS

Congress Is Struggling With Farm Relief and Tariff Change Problems.

By EDWARD W. PICKARD.

CONGRESS, which met in extraordinary session at the beginning of the week, is struggling with the problem of farm relief, for the solution of which mainly it was called to Washington by President Hoover. On the first day the usual process of organization was carried out, Nicholas Longworth being re-elected speaker of the house and Vice President Curtis taking his place as presiding officer of the senate. Possibly for the purpose of avoiding any objections to the seating of De Priest and Michaelson of Illinois, Mr. Longworth swore in all the new members of the house at one time. De Priest, colored, was under indictment for months as a member of a gambling ring, but the case was dropped recently. Michaelson was indicted in Florida on charges of smuggling liquor into the country. The administration's farm relief measure was promptly introduced by Representative Gilbert N. Haugen of Iowa and the next day it was approved by the new committee on agriculture by a vote of 19 to 2.

Tuesday President Hoover's message was read to congress. It was brief and business-like, as might have been expected, but did not meet with unanimous approval. Some of the Hoover's supporters in the campaign were decidedly disappointed in his handling of the farmers' problem, these including Senators Capper, Brookhart and Norbeck. The President recommended legislation covering eight matters, as follows:

Creation of a federal farm board, an enormous revolving fund and other machinery for stabilizing agriculture on a basis more profitable to the farmers.

Limited revision of the tariff to increase the protection of the farmers and to furnish adequate protection to those industries in which changed economic conditions have produced slackened activity and lessened employment.

Reorganization of the tariff commission and of its method of operation.

Provision for domestic valuation of imports in cases of foreign undervaluations.

Provision for the taking of the census of 1930.

Reapportionment of representatives in congress.

Suspension of the national origins immigration restriction system.

"Minor administrative authorizations," possibly including the enactment of prohibition enforcement to the Department of Justice.

The control of farm production and improvement of marketing by Mr. Hoover's plan, as embodied in the bill before the house, would be committed to the supervision of the federal farm board which would use a government revolving fund to finance farmer-controlled corporations and associations. The President is known to be opposed to the export debenture plan though he made no mention of it in his message. The scheme was offered in the senate's bill for agricultural relief, which varied in other respects from the house measure.

Concerning tariff changes the message was rather vague. It said congress should be careful not to make alterations that would impair our export trade or cause retaliation by other nations. The President's recommendation that the national origins immigration restriction system be suspended probably will meet with more opposition in congress than any other of his suggestions.

POLICIES of the federal reserve board which affected stock market activities by restricting the amount of money for speculation were attacked in the house by Frank R. Reid of Illinois and Loring M. Black of New York. Representative Reid offered a resolution for appointment of a committee of nine to investigate the administration of the federal reserve system, suggesting that the board might have been unduly subject to foreign influences.

Representative Black defended speculative activities on the New York Stock exchange and insisted there was no occasion for alarm on account of the greatly expanded operations there. He asserted that the federal reserve board was injuring business generally by attempting to curb speculation. The board, according to Mr. Black, is exceeding its powers under the law.

APPOINTMENT of Charles G. Dawes as ambassador to Great Britain was confirmed by the senate without roll call. Other Presidential nominations were those of Joseph M. Dixon of Montana to be first assistant secretary of the interior; Oscar B. Colquitt of Texas as a member of the board of mediation; John M. Morin of Pennsylvania as member of the Unity in the Capital employees' compensation what constitutes "the proper steps" for any one desirous joining the Democratic party.

His reply to Mr. Mapp part, follows:

section 228 of the Code pro- in part:

All persons qualified to at the election for which a primary is held, and not qualified by reasons of requirements in the law the party to which he belongs, may vote at the primary cept that:

No person shall vote for candidate of more than party.

No person shall be permitted to repeal the state prohibition act and to wipe out the state prohibition commission, and barried the measure on to the senate. The bill takes the Badger state out of prohibition enforcement, but leaves the matter optional with municipalities. Cities and villages can adopt any regulatory or prohibitory ordinances they see fit, if they want to they can adopt the abandoned state dry code as their own, but effective only within their own borders.

Washington's reply to Canada's protest against the sinking of the rum runner I'm Alone in the Gulf of Mexico by a coast guard vessel was delivered to the Canadian legation. Its contents were not made public, but it was understood to be conciliatory and designed to confine the dispute to legal aspects of the case. The issue may have to be determined by arbitration.

X-Ray Used on Flies to Help Human Race

Washington.—Flies which have long been held in bad esteem as spreaders of disease are about to do their bit in helping the human race. They are being used now for studies of the effect of X-rays on future generations. In flies, the harmful effects of these rays appear in the third and fourth generations, Dr. Mary H. Stark of New York city reported recently. She has exposed flies to X-rays for varying lengths of time.

While the individuals exposed continue to grow and breed, their descendants die off. Doctor Stark believes this is because the reproductive cells of the grandparent or great grandparent flies were injured by the rays. This injury is handed on finally causes death. In this some way cancer may be produced in third and fourth generations of flies.

Doctor Stark believes that the experiments on flies will throw some light on this problem in human beings after theory is not accepted by all scientists, however. Because the human race breeds slowly, it will be some time before the inherited effects of X-rays can be noticed in man.

Illusions of Romantic East Lost After Trip

Philadelphia. — Three adventuresome young men who recently completed a rapid 14,000-mile tour into the heart of Transjordania, Arabia, and Syria returned with shattered illusions about romantic illusions of the desert.

The travelers—Robert P. Brown of Moorestown, N. J.; Richard A. Tausig and Chester P. Beatty, both of Germantown, Pa.—were entertained by three kings of the Near East.

Dusky beauties of the desert are non-existent, the youthful travelers said. The women, they said, are mere drudges. The bandit tribesmen, instead of sallying forth in gay garments, mounted on beautiful steeds and armed with antiquated guns, now use motor cars and machine guns in their forays, they said.

Long Time at It

Oullamoria, Russia.—It took Catherine Sorokina 121 years to become a voter, but she has done it. Born a serf and sold at the age of fourteen for a hunting gun, she is a free voter in the local Soviet now.

HARRY F. SINCLAIR, seeking to avoid imprisonment for contempt of the senate, has asked the Supreme court of the United States to reconsider its recent decision upholding his sentence. Meanwhile it is reported he has lost control of the Sinclair Consolidated Oil corporation and that his place as chairman of the board may be given to Col. R. W. Stewart, whom John D. Rockefeller ousted from the chairmanship of the Standard Oil Company of Indiana. The Sinclair company is said to be dominated now by a new group of financiers.

RUSSIA, supported by Germany and Turkey, again presented to the League of Nations preparatory disarmament commission her plan for the immediate reduction of armaments. But France and Japan attacked the scheme as impractical, the other delegates were unfriendly, and the commission voted against it. The Soviet plan provides for reducing armaments one-half, one-third or a fourth, according to the present military strength and various categories of the countries. It would establish definite figures on the number of effectives and the amount of material for the armies, navies and air forces, as against the conservative idea of merely seeking an agreement on broad general lines as recommendations for some future plenary disarmament conference which should fix the amounts and numbers and fill in all the details and particulars.

H. G. WELLS, the noted English novelist and publicist, addressing the German relicstag in Berlin, gave utterance to a grim prophecy. He said: "Our world is marching on to a still greater war, into which we will full headlong as we did in 1914 unless we start to work systematically for peace. The chief danger is connected with Russia, which, through compulsory isolation, is becoming a country of inwardly concentrated patriotism which is likely to lead to a tremendous struggle between Russia and the western powers. The Russians will call it a battle against western capitalism, but it will be more than that. War may break out in Asia or elsewhere, but it will spread all over the world in a useless and gigantic war."

GENERAL CALLES, having the Mexican rebellion practically cornered in the state of Sonora, went to work carefully and systematically to crush it. Until there, the campaign being under the active direction of General Almazan. Federal forces were being concentrated, coming from the east and south. The program was temporarily disarranged by a new uprising in Coahuila and a battle in Fulpito pass, the entrance to Sonora. Federal aviators reported that General Caraveo had 1,500 insurgents defending the pass and that hundreds of Yaqui Indians were hidden in the mountains ready to engage in guerrilla warfare. General Enriquez, one of the rebel commanders in the battle of Jimines, surrendered to General Almazan. The latter said Enriques would not be executed but would be treated as a prisoner of war—quite a departure from the usual Mexican practice.

SO WIDELY divergent were the proposals of the allies and the Germans in the matter of German reparations that the conference of experts in Paris ended in complete failure, Schacht offered for Germany 37 annuities of 1,650,000,000 gold marks, or more than three billion dollars total less than the sum demanded by the allies; and he would not increase the offer by a cent. Lord Revelstoke's committee could devise no compromise, and it was therefore decided it would be useless for the commission to continue its labors. The delegates of the allies blamed Doctor Schacht for the breakdown of the negotiations, saying he had political matters into what were to be a purely financial and Germany's credit should suffer greatly.

KING BOREpublicans, been your question. ces seem to indicate R persons had pre- voted the Republican ket.

There is nothing to prevent a former Republican from becoming a member of the Democratic party, if he takes the proper steps to do so, but, until a former Republican or a former member of any political party other than the Democratic party, he is not, in my opinion, entitled to vote in a Democratic primary.

If you will be more specific in your question, I shall be glad to further advise you".

Of course no Republican is entitled to vote in a Democratic primary. Therefore every man and woman who voted

courtroom in Sherman, Texas, in the midst of a lawsuit. Death was caused by a clot of blood in the heart. After his service in the national congress Mr. Bailey in 1920 sought the governorship of Texas, but was defeated by Pat Neff largely because of his activities against prohibition and woman suffrage.

The body of Myron T. Herrick, late ambassador to France, was interred in Cleveland, Ohio, after impressive ceremonies in the Trinity Episcopal cathedral which were attended by eminent representatives of the American and French governments and as many of his sorrowing fellow citizens as could crowd into the edifice. The streets through which the cortege passed with military escort were thronged with people, despite rain.

Brother's Delight

How the rascal loves to tease her,
And to pinch her cheeks, and squeeze her,
As he rocks with gales of laughter
At her angry squeals of woe!
He would rather hear her holler
Than to find a silver dollar;
He would rather tease his sister
Than do anything I know.

He is just as apt to shove her,
As he is to sweetly love her—
He is just as apt to pinch her
As to hug the little miss.
He is just as apt to tell her
That her Daddy's goin' to sell her,
As he is to steal upon her
And surprise her with a kiss!

But for some cause or another
She believes her little brother
Is, in spite of all his torment,
Still the finest boy of all!
And to him, his sister Mary
Is as sweet as any fairy—
But he dearly loves to tease her,
Just to hear her lusty squall!

I have warmed his little britches
With my hand and little switches,
In a vain attempt to teach him
Not to tease her any more.
But I might as well admit—
That I haven't made him quit it;
I declare he's worse today than
He has ever been before!

Let us do your job work!

It is worth much to you before buying any car or truck to LOOK at the condition of the tires. Tires can't be done if fire destroys them. Fire is the most serious enemy of trees In some parts of the United States a forest fire kills every tree on the land burned over, but in the South this does not often happen. Forest fires in the South burn along the surface of the ground and usually do not get into the tops of the larger trees. The large trees therefore are not killed out-right, but they are damaged. Fire scars at the base of the trunk or cat-faces as they are called by the logger, provide an easy entrance for insects and rot producing fungi. As the trees grow older the rot extends upward from the scars like cancer until finally the lower part of the tree is entirely infected and worthless. The most valuable part of a sound tree

OUR used car department is operated under the famous Chevrolet Red O. K. Tag system. Under this plan, we attach the Chevrolet Red O. K. Tag to the radiator cap of every reconditioned car—showing exactly what vital units of the car have been checked or reconditioned by our expert mechanics.

We believe that no fairer system of used car merchandising has ever been worked out—for it is to the great popularity of the new Chevrolet Six, we have on hand at this time a wide selection of "O. K.'d" used cars taken in trade on new cars. Come in and look them over. You are sure to find exactly the car you want at a price that will amaze you. Terms are exceptionally easy.
